

## **Insignia Technology Services Ranked 29th fastest growing Company in the US by Inc. magazine with a Three-Year Sales Growth of 6,430%**

**Newport News, August 24, 2010** – Insignia Technology Services is proud to announce its inclusion in the 2010 Inc. 500 list, an exclusive ranking of the nation’s fastest-growing private companies. Insignia has been ranked No. 29 on the 2010 list with a three-year sales growth of 6,430%. Insignia also received recognition for being the 7th fastest growing Company in the Government Services sector.

The Inc. 500|5000 list annually ranks the nation’s fastest-growing private companies. The list represents a comprehensive look at the most important segment of the economy—America’s independent-minded entrepreneurs. Companies such as Microsoft, Zappos, Intuit, GoDaddy, Zipcar, Clif Bar, American Apparel, Oracle, and many other well-known names gained early exposure as members of the Inc. 500.

“Fast growth at any time is a big achievement; fast growth during the past few years is just short of miraculous,” said *Inc.* editor Jane Berentson. “The Inc. 500 consists of these just-short-of miraculous companies, the ones that through ingenuity and ambition have increased revenue, hired employees, and grown fast in difficult economic times.”

Insignia Technology Services, LLC is a Newport News, VA based company, a leading provider of information technology services and solutions to Department of Defense. Core competencies are cradle-to-grave support of very large and complex Enterprise-class IT solutions running in mission-critical high-availability environments. This includes everything from program management, architecture, and engineering to help desk support and training. In addition to building and managing Enterprise-level IT solutions, Insignia also provides top-notch professional services in the areas of educational technologies, knowledge management, systems integration, strategic planning, and enterprise architecture.
